November 2006 Meeting Announcement

Speaker: Werner Aeshlimann

Werner received his MEE and MBA degrees from the University of Lucerne, Switzerland. Werner holds 3 patents and managed the data distribution for several spectacular project, the one closest to us, the Squaw Valley Areal Tram. At present, Werner serves as General Manager of NWDP.

Title: Is The Future Shielded In Copper Cables?

The presentation will provide a basic understanding of copper data cables and their shielding (EMC-EMI). After the presentation, the participant will be able to read, interpret and understand a data sheet. Werner promised samples of Cat.7 and Cat.8 cables and special Power Supply Cable with Bus-> Euro Bus for smart Buildings.

Date: Thursday, November, 16th, 2006

Time: 5:30

Location: Nanolife, Teaching Facility
3708, Lakeside Dr. Ste 100

Note the change in agenda:

we start with the presentation and move on to the pub for afterthoughts, and beer cooled discussions at Foley's, the Irish Pub across from the Peppermill.

Bring your colleagues, friends, spouses, significant others, the presentation is free.

Newsletter November 2006

Previous meeting:

Bill Mandl of Amain gave a great presentation on new concepts for digital cameras and displays, using oversampling techniques, and digital signal processing techniques for interpolation, as well as decimation.

A big Thank you to our sponsors:

Corporate Sponsorships are 250.- We need your support. you'll be listed on our web page, on the side bar of our newsletter and get free memberships for your staff.

Please request an application from Michelle or download it from our website:
www.renotahoepotonics.com

Winter Social:

Nanolife is providing room for us every month and offered to do the Winter Social for us again this year. Mark your calendars for the 14th of December.

Please: print 5 copies and post on your announcement boards, have some copies at hand to give to anyone interested in Photonics.
